The Survey Instrument

The Pulse Survey is an employee survey that provides a quick overview of your employee's satisfaction and attitude towards the organization over time.

Our clients have found that employees not only have the questions but they also have the answers. By listening to your employees and acting on the survey results, you will be able to identify organization-wide strengths and build upon them.

This survey is designed to evaluate and provide management with a snapshot of the organization along with trend analysis on either a monthly or quarterly basis. This survey can also be administered annually.

This product is very cost effective and typically can be launched within 5 days of the engagement.

The Pulse Survey demonstrates to employees that their opinion and ideas are considered important.
